

Long Term **Care & Housing** Solutions After College.

Empowering independence, choice & quality of life

Rees Jones – Head of New Service
Development
Cavalry Healthcare (Care Provider)

Abdul Latif – Managing Director
TillyCo (Cavalry Group – Housing
Provider)

Supported Living

- More independent living without compromising care and support needs.
- Care and Housing elements are separate.
- Wider choice of housing, where people want to live, who they want to live with.
- Bespoke properties, tailored to the individuals housing needs.
- Homely feeling, not institutional.
- Tenancy rights which provide wide range of protection for the individual.
- Avoiding institutional setting and making people feel part of the community.
- Registered Housing Provider

Differences between Supported Living and Residential Care

Function	Residential Setting	Supported Housing Model
Accommodation Type	Designated accommodation, service usually already in situ. Individuals are allocated a space dependant on vacancy and type of service.	Bespoke, in the community, can be share or self-contained. Options of how property is sourced. Type of property, location and environment. Properties can be adapted and tailored.
Type of support	General 24 hours	Tailored to the individual needs. Care assessments are carried out to determine the type of support.
Who provides housing elements	Care provider or affiliated company	Independent Housing provider.
Funding	Adult Social Services or Health	Care is funded by Adult Social Services or Health Housing aspect is funded by housing benefit.
Regulator	CQC	CQC Local authority Regulator of social housing
Aim	Provide safe and secure setting	Provide independence within a safe and secure setting.

Long Term Housing & Care Solutions

On a mission to change care for the better.

A Home for Life with Stability, Safety & Support.

- In our model, care and housing are fully integrated.
- We combine care and housing under one group but as separate companies.
- Suitable for people with lifelong or complex needs.
- Individuals have their own home, not a placement.
- Care and support that is adaptable as needs change.

We are focused on stability, safety, and quality of life.

Why Choose Cavalry Healthcare & TillyCo?

Quite simply because we do things differently.

Our model is clinically led, so everything we do is based on professional expertise, but with a strong human focus we never lose sight of the person we support, and we involve families every step of the way.

We offer integrated support, care and housing under one group and because we're one team delivering both care and housing, we can offer true continuity, the same people, the same support, day after day offering long term stability.

Homes for life, no disruptive moves when needs change

• Properties can be adapted to suit.

CQC and Ofsted regulated care.

What's next from Cavalry?

A stylized, dark blue silhouette of a horse's head in profile, facing right. The mane is depicted with several curved, pointed shapes. The background is a solid, medium blue color. At the bottom of the image, there is a horizontal bar of a darker blue color.
