

# LiftTraining

A National Star Independent Travel Training Programme

## Testimonials

"The National Star College has been delivering LiftTraining in West Berkshire since May 2011. The programme has been invaluable in enabling people to travel to and from school independently. This not only improves their independence, but also gives people more confidence and self-esteem and a very important life skill for the future." *Jane Seymour, West Berkshire Council*

"LiftTraining has been working in partnership with Gloucestershire County Council since 2007. Working together produces cost savings and efficiencies for Gloucestershire County Council and enables greater opportunities for people to access school and public transport independently" *SEN Transport Department, Gloucestershire County Council*

'Derbyshire County Council recently introduced Independent Travel Training for young people who might face difficulty with using public transport, to help them live more independently.' *Children's Transformation Programme, Derbyshire County Council*

"LiftAwareness was a very good, enjoyable course. Many of the students are now very excited about the prospect of independent travel." *Sheona Schofield, Ashgate Croft School, Chesterfield*
