Oliver McGowan Tier 2 Mandatory Training on Learning Disability and Autism

Understanding People, Improving Care

The Oliver McGowan Tier 2 Mandatory Training on Learning Disability and Autism is the Government's preferred and standardised training package for health and social care staff. Developed with the involvement of people with lived experience, the programme aims to improve understanding of learning disability and autism, reduce health inequalities, and support professionals to provide person-centred, inclusive care.

This course helps delegates develop the knowledge, skills and confidence needed to make reasonable adjustments, communicate effectively and deliver high-quality support to people with learning disabilities and autistic people.

Course Highlights

- Nationally Recognised Training
  Complete the Government's recommended mandatory training on learning disability and autism.

- Co-Delivered with Lived Experience Experts
  Learn directly from trainers with lived experience, ensuring authentic and meaningful learning.

- Interactive Learning
  Participate in discussions, case studies, practical exercises and reflective activities.

- Improve Person-Centred Practice
  Develop skills to recognise individual needs and make appropriate reasonable adjustments.

- Support Compliance and Best Practice
  Demonstrate commitment to delivering inclusive, high-quality services.

Funding Opportunity

If your organisation is registered on the Adult Social Care Workforce Data Set (ASC-WDS), you may be eligible to claim through the Learning Disability Support Scheme (LDSS).

Simply book and pay for the course with National Star, then submit your funding claim through the LDSS following attendance, subject to eligibility and scheme requirements.

National Star is a charity that works with people with disabilities, enabling them to live their lives independently and to the full.
National Star and StarTraining are working names of National Star Foundation, a charity registered in England and Wales number 220239

Learning Outcomes

By the end of this course, delegates will:

● Increase their understanding of learning disability and autism.

● Recognise the barriers and inequalities experienced by people with learning disabilities and autistic people.

● Understand how communication differences can affect access to services and support.

● Identify and implement reasonable adjustments to improve outcomes and experiences.

● Reflect on attitudes, values and behaviours to promote inclusivity and person-centred practice.

● Develop practical strategies to support individuals effectively within their own professional role.

● Apply learning to improve the quality, safety and accessibility of services.
